 Toronto, Ontario

 [Ling \(Christine\) Chang](#)

 [Portfolio](#)

ABOUT ME

Software & Web Developer with hands-on experience in front-end frameworks, RESTful APIs, and database integration. Skilled in translating user needs into scalable, reliable, and accessible digital products. Strong foundation in JavaScript, TypeScript, and Kotlin, with proven ability to collaborate across design and engineering teams. Passionate about building technology that connects people and enhances user experience.

EXPERIENCE

UX Designer

Afroidentity Inc., Toronto, Canada | May 2025-Current

- Designed and prototyped app interfaces and a [pre-launch website](#), accelerating development and ensuring visual consistency across mobile and web.
- Conducted **accessibility and usability testing** to meet **WCAG 2.1** standards, improving inclusivity and user satisfaction.
- Developed comprehensive **brand assets**—logos, color palettes, and typography systems—to strengthen product identity across digital touchpoints.
- Collaborated remotely with developers and marketing stakeholders to align user journeys with cultural representation goals.

CO-OP Web Designer

S-Qubed Entertainment Inc., Toronto, Canada | May 2025-August 2025

- Designed responsive website layouts, delivering visually engaging and improved content readability.
 - Partnered with cross-functional teams to refine **site information architecture** and maintain consistent brand storytelling.
-
